Without slackening speed the racer is said to have fled the scene of the accident and turned from the main highway into a side road leading to Nuttings' lake.

The big clue which the boole of Billerica, Redford and surrounding towns are working on, was furnished by 14 year-old Pearl Graham, a witness to the accident, who scrawled the registration number of the racer in the dit on the roadside pending the arrival of the police.

A bine colored, boat-shaped our has been seen in Lowell a great deal of tate and, as it is of the same description and make given by witnesses much significance is being attached to it in connection with the accident. Every pairolman of the local force has been furnished with a description of the olicing death-car and early apprehension of the occupants is expected. In addition to a manslaughter charse, which would be placed against the driver, those of operating an auto so as to endanger the lives of the public and one of ficeing the scene of an accident without giving proper identification may be placed against the offenders.

With the exception of the boy and Mrs. Hardy, all escaped serious injury.

The secilent happened when the Boston party was spid, to have been crowled off the road by the racing machine which contained three young men. The touring car was hally wrecked as the result of lin crash with the pole. It was towed to the Shawsheen service garage in Billerica.

Dr. Maufice A. Buck of Billerica and Dr. Whidded of Heifford were called to the scene of the crash. They ordered Mrs. Hardy to the Concord hospital. At noon loids she was reported to be in a zerious condition and her name was still on the dangerous list.

The idea of using high explosive shells was to minimize the risk of fire. The generator were moved to fresh positions, where the advantages of direct fire seemed greater.

Uitimatums lamored

The attack of the insurgents was preceded by the sending of two ultimatums to Commandant Rory O'Connor's forces yesterday and late last night to strengthen their defenses anticlprition of the attack, which their leader boasted that he desired and did not fear. He has held the insurgents. The other set a time limit after which an attack would be made. Five casualties among the Free State from had occurred up to 11.30 c'clock. 3.30 o'clock demanding the surrender of the building within an hour. So far as can be learned, no reply was re-

turned.
Shortly after 4 o'clock, an armored car passed up the Quay in front of the building and is declared by the free staters to have been fired upon by the garrison, immediately an 18-pounder mounted on the armored car sent a shell crashing against the masonry of the Four Courts. There was a fierce reply with rifle from within the building.

Almost immediately a continuous ex change of fire between the two forces was in progress.

There are many other features connected with the party. A novelty dance program has been prepared by Miss Doris Couley, who scored such a tremendous success at last year's party. She has carefully drilled the large number of children, and this year's effecting gives promise of surpassing her previous endeavor.

As a part of the afternoon's program for the children Mr. John H. Condon, organizer and coach of the Edson school ball team, grammar school phasipious, has arranged an attractive program. There will be the customatry midway, etc., all in charge of capable committees.

The object of this year's lawn party is to raise money to complete the work of re modelling and fitting up the lower auditorium of the church.

THE MERRIMACK NAVIGABLE

Notice from Congressman Rogers indicates that the hearing on the Mer rimack river project before the board of army engineers in Washington, will be held on July 11. At that time and place it is expected that there will be a goodly representation of the business interests of the Merrimack valley to appeal against any summary or arbitrary rejection of the scheme of making the river navigable from Low-

ell to the sea.
Already a great deal has been done in this direction, dating back to the days of General Butler. The federal government has land on either side the mouth of the river, as it empties into the ocean between Salisbury beach and Plum island, a long line of huge rocks jutting into the ocean a distance of over one-eighth of a mile.

object of the present hearing The object of the present until the cost of construction is lowered and until the government is better propared to engage in such undertakings. It means much to the future of the towns and cluics in the Merrimack valley as a water freight service to the sentenard would overcome the discrim-ination in freight rates generally exersed against Lowell. The cost at the present time would be serveral times as great as in 1914 or when the plans were favorably reported upon by the engineers some ten years ago.

CHURCHILL ON IRELAND

ft was to be expected that the British parliament would rake the ministry on its Irish policy as a result of the assassination of Sir Henry Wilson; but, as usual, the premier steered through the troubled waters without through the troubled waters without any sign of trepidation. The vote by which the ministry was upheld indicated that the appointion numbered only 75 as against 312. Secretary Churchill in his explanation of the Uister trouble clearly mis-stated the trouble clearly mis-stated the facts when he said "the trouble in Uister was due to the organization there of two divisions of the Irish republican army and the continuous efforts of extreme partisans of the south to break down the Uister government and force Vister against her will to a straight line instead of requiring and force Ulster against her will to in England to raise or lower them in come under the rule of Dublin." The a straight line linstead of requiring trouble started long before the republican army set foot on Ulster. It had A few more feel-prind devices, like its beginning when the Ulster unionities have all the Catholies from the bright mainling we'll awaken to find shippards of Belfast, following up the the devices by course, and again to an When II starts, it will come as fast shippards of Belfast, following up the attack by nurser and arson to an when it starts, it will come as fast when that bankshed 25,606 Catholics from their homes to other localities. In addition, the Ulster unionists pursued a policy of reprisals for the twelve reseture of eight and blumpard to change the whole reseture of eight and discourse by killing of police and other British wireless from high elevations in the officials in the south. It is absurd to also the twelve transfer and discourse by the provide and the south the resulting at the start that say that the republicans tried to en-erce Ulster to join the Dublin government which was vigorously opposed by republicans as an adjunct of the Eritish evapire. The republican army after a great display of patience went into Ulater to check the outrages inaugurated against the Sinn Fein. It is not surgerising at all, that Sir Henry Tree working, the output was only against transfered was because of the content working. About the time King George out wages. made a conciliatory speech in opening the Uister perliament, the Sinn Fein intercepted a letter from Sir Henry Wilson in which he said: "The only way to settle the Irish question is to exterminate the southern republicans with the state of the thore there was ruthlessly." At that time there was no republican movement in Ulster. Speaking of Wilson's attitude toward the Irish neonle, the New York World said: "Rightly or wrongly, Sir Henry was credited with the idea of the formation of the 'free lance' forces of the Black and Tans and their auxiliaries who were charged with some of the worst crimes in the long fight between the Sinn Fein and the crown forces." ums of elementary schools. The rec-

lums of elementary schools. The recitations were given with a great deal of spirit and with a confidence that iffted them far above the usual run of expressionless declamatory efforts. The music, sung under the direction of Frederick O. Blunt, also was especially well rendered and instantly appreciated.

This year's class continued the custom of presenting a gift to the school and added the fifth pleture in the series depicting the evolution of the printing press. It was titled "The Manuscript," and was an anusually fine reproduction of one of the series of six that hang in the congressional library at Washington. It was presented to the school by the class president, Robert Timmons, and accepted by William W. Dennett, master. The address to the graduates was delivered by Hurly J. Molloy, superintendent of schools, and diplomas were presented by Maurice J. Lambert, Jr., of the school committee.

How to Play Baseball

Should Infielder Block a Base Runner!

BY BILLY EVANS.

American League Umpire and Sporting Editor of M.E.A. Service
Of late years there has been a tendency on the part of some infielders to resort to blocking to get results.
Catchers have taken up the custom even more than the infielders. Protected by heavy shin guards and a protection, the esteher has a decided and vaniage over the runner. As a matter of fact, the runner comes in high speed in an effort to intimidate the catcher. It is runner comes in high speed in an effort to intimidate the catcher, he is at once regarded as a rowdy player.

A great many infielders now wear a heavy felt protection for the shins. This protects them sgainst spikes and makes it possible to take many chances.

When an infielder louches a runnor.

'Iron Man' Stunt by Rommel Brings Double Victory

Rejuvenated White Sox Now in Fight for Pennant -Are Ticd for Third Place NEW YORK, June 28.-Connie Mack's Athletics are out of last place today and Boston is holding down the cellar borth as a result of the "iron man"

performance of their star twirler, Eddie Rommel, in chalking up two victories over the Red Sox. Rommel earned a 4-2 decision in the first half of a double header and came back in the seventh inning of the second game to stem a Boston rally, while his mates pounded Ferguson and won, 6 to 4. Tillio Walker cracked out his 13th homer of the season, tying the total of his teammate, Bing Miller.

The rejuvenated White Sox tossed their hats into the American league pennant ring by trouncing Detroit, 9 to 5, after Ferdie Schupp had been driven from the mound in the first inhing, and ascending to a tie for third place with the Tigers.

The Yankees were kille but the St. Louis lost part of its margin at the top when Cleveland snatched victory from the Browns with a six run-rally in the eighth that sent Wright and Van Gilder to the showers. The score was 9 to 7.

Colleges Not Clubs, Says Meiklejohn

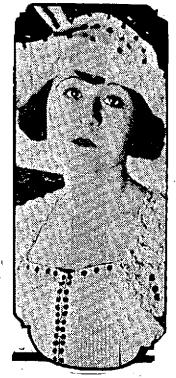

BOSTON, June 28 .- President Alexander Meiklejohn of Amherst, speaking at a convention banquet of Theta Delta Chi fraternity last night, said that American colleges "must not, cannot be, shall not be, private clubs or their facilities used for private ends and enjoyment." President Meiklejohn asserted that in his opinion the college was a public institution and not a private place and that "it ought to exist only insofar as it serves the people and all the people of the country in which it exists."

to the good cause for which the carnival was held.

The remonstrants for the most part talked about something over which the license commission has no jurisdiction—the South common. At times the meeting became quite spirited and it was necessary to call for order on more than one occasion. After hearing all the evidence the commission withdrew and at the end of a 15 minute conference announced its decision. Dr. Livingston was the first to speak in the interest of the legion. He told that the object of the legion running line carnival was to raise money for the local post, which was in debt. He explained the legion wrote to the Ingall's company and asked it to come here. He said that the legion needed the funds badly to pay back money already borrowed. Dr. Livingston said that the company guaranteed \$200 and 15 per cent of all gate recoipts.

mander Garrity explained the work of the legion and what it has done and is doing for ex-service men. He showed how all of this work needed a great deal of money. He pointed to the McManus' plenic and what it meant to every person. Het showed that the only amount of money actually received for dues from members is \$1.50 per person.

Garrity said that the legion hadn't given the July Fourth carnival to be singed on the South common a thought. He stressed the fact that the big idea of the carnival was to put over the McManus plenic.

Michael J. Harrington also spoke in favor of the petitioners. He said the big idea of the carnival was to raise funds to put the legion on a firm financial basis. He pointed out that all theatres in Lowell are owned by out-of-town people and the money grees to them. He said that 86 per

Martin F. McCarthy added his bit in favor. James J. Powers, past commander of the legion, was the last speaker for the potitioners. He claimed the opposition was not constructive but was of a personal nature.

William Schaake was the first speaker for the remonstrants, He said he was merely the spokesman of the theatre managers. He said that the managers held a standing protest with the license commission against carnivals.

He pointed out that all carnivals

He pointed out that all carnivals come to Lowell under the auspices of some worthy organization and that makes it difficult for the managers as it neems as if they were hitting directly at the organizations.

He then announced that on behalf of the managers he wished to withdraw any opposition in this particular instance inasmuch as he realized the legion needed the money.

Francis J. Hoane spoke on the side of the remonstrants, He said he did not own lots on the common this year. He also said he offered 'Commander Garrily \$1000 for the same privilege as Ingali's was getting for \$230. Reane said that the legion was being blinded

Commissioner Putnam asked several questions of the dector, which seemed to be answered in a satisfactory manner. Commissioner McGrath wanted to know more about the 16 per cent. business. The doctor said that he couldn't explain that in detail. Stephen C. Charrity, commander of the legion, was the next man in favor of the petitioners. He asked that part of the legion's constitution be read to the commission.

Following the reading of this, Commander Garrity explained the work of the legion and what it has done and is doing for ex-service men. He showed how all of this work needed

In opening, Mr. Warner spoke of his deep sense of gratitude at the invitation to speak before the local club. He told of talks he had given before other organizations in various parts. of the state, saying none of them had given him more pleasure than the opportunity presented him of address-

opportunity presented him of addressing the Rodary club today.

The ex-speaker announced that his address would consist of a brief survey of the administration of public affairs in Massachusetts. Massachusetts, be said, is a small place on the map, occupying only a little territory in the northeastern corner. Although the fourth smallest state, lowever, it has a population nearly one-half as large as that of the entire Dominion of fourth smallest state, however, it has a population nearly one-half as large as that of the entire Dominion of Canada. One-third, at least, of its inhabitants are of foreign parentage or birth. It contains 25 cities and 317 towns, but its cities are well populated. Springfield, for instance, has a greater population than the state of Nevada, and Worcester has more inhabitants than the state of Idaho, Boston exceeds in population the binsy little industrial state. Speaking of the demand for a short ballot at the primarics, which would result in the appointment of the secretary of state, state treasurer, attorisy general and state auditor by the governor, Mr. Warner said emphatically that he believes in the retention of the present system of nomination

training in scientific methods, but the great number of students at this school haven't the money with which to establish farms after graduation. The census figures for 1910 and 1920 show a great decrease in the number of farms and farm employes.

Next comes the department of conservation, through which \$3,000,000 has been expended for reforestation. There are two splendid reservations and eight fine grate parks, a visit to any of which would be a revelation. This department also deals with the Bah and game replenishment situation. Through the natural increase in hunders and fishermen the last report shows a decrease, but the state is doing all it can be remedy this condition.

In the insurance section, there is an outstanding quention between the eline companies and those of the western states. In this state, a barrier is creeked through the severe requirements, and the western companies say these requirements and the barrier this greater must be broken down. This is a question which must be faced and settled.

Mr. Peerahout, the Man-in-the-Moon was lost and now Comet-Legs, that awful fairy, had run off with the magic powder and threatened to turn the moon square.

Nahey and Nick were nearly at their wits' end. Wasn't it a good thing kind Mr. Sprinkle-Blow had come to the moon to help them!

The three of them stood in the little house where the Moon-man kept the handles for running the risoon. Cometices had been playing hob with these of the moon. For the good said support the risoon. For the good said support the risoon. For the good said support the ging their heads and gazing to through their long glasses at the queer antication. Legs had been playing bob with these handles, jerking the poor old moon this way and that like an automobile someone is just learning how to drive.

The defendant was employed by the Redmond company prior to March but was discharged some time in February. It is then claimed that he ordered certain stocks through the company. When the stocks came from the Boston office, as the story goes, they were delivered to Thomas, who in reply to a question regarding payment, said that everything was all right as he had made payment at the Boston office.

Merrimack River Hearing in Woman Charged Drunkenness and Illegal Washington Will Not Be Keeping—Man Robbed

Held Until Fall

In view of the fact that sentiment throughout the Merrimack river valley is strongly in favor of a positionement of the hearing scheduled for July 11 at Washington on the rivernavigation project, it is probable that it will be positioned until some time next fall.

Mayor George H, Brown today received word from Congressman John Jucob Rogers that he is endeavoring to obtain a positionement and stating that men interested in the project. In Lawrolice and Haverhill also are working for this end.

The mayor said that he favors any change that might have a tendency to work to the good of the progenents of the project and that tomorrow he will metel with the members of the clay council who have been chosen and designated to represent the city of Lowell at the hearing, to obtain their ideas on the proposed postponement.

Also, in today's mail, the mayor received a communication from the board of army engineers, asking if the date of July 11 is favorable to him and any representatives of the city who might attend.

At the last meeting of the council Tresident Bagley appointed Council or Smith J. Adams as one of the city's ropresentatives and the mames of the officers more than 200 compty beer intities were found together with a small quantity of beer and monshine.

The other occupants of the ill-fated machine included David P. Fester, 17. Forest street, Wakefield, its owner and driver; George Hardy, father of the dead boy; Mr., and Mrs. Harold Matthews of Remiek court, Somerville, and Harry Walcott. With the exception of the boy and Mrs. Hardy, all escaped serious injury.

The accident happened when the Boston party was said to have been crowded off the road by the racing machine which contained three young men. The touring car was hadly wrecked as the result of its erash with the pole. It was towed to the Shawsheen service garake in Billerica. Dr. Maurice A. Buck of Billerica and Dr. Whidden of Bedford were called to the seens of the crash. They ordered Mrs. Hardy to the Concord hopfield. At moon today she was reported to be in a serious condition and her name was still on the dangerous list,

PROVES ATTRACTIVE

Mayor George H. Brown and members of the municipal council were among the visitors at the opening of the new show rooms of the R. H. Long Motors company, 187 Market st. last Saturday. They congratulated Manager Mathew Wood on the excellence of the new quarters and the attractiveness of the models displayed and extended best wishes to the new company for its success in the city. In connection with the opening Mr. Wood and his assistants, R. J. Rutledge and H. W. Rishop, wish to thuck the friends who gave them such a cordial welcome by sending the many floral gifts which lined the showrooms Saturday.

In speaking of the Bay State cars
Mr. Wood said that he was sure Masmachinetts and New England people
would be quick to realize the advantage of outning a car the factories for

Frandingham, Mass. Under these conditions it will become

which are located in Worcester and Framingham, Mass. Under these conditions it will no longer he necessary for buyers to pay a considerable amount of money to bring their cars from some western city to their homes. Another advantage is that with the factory only a few miles away, parts and supplies can be supplied with a minimum of time lost.

The Bay State factories have just finished the last of their first 1000 cars, and demand is already exceeding production. A feature of the Bay State selling plan that is very popular with ear huyers is the fact that these cars have sold direct from the factory to the owner. There is no middleman, and consequently there is but one reasonable profit taken on each car sold. The local agency has already placed a minimizer of cars in this territory and according to reports owners are loud in their praise of the new car.

Isolated from Belfast

BELFAST, June 28. (By Associated Press.) - Dublin today was isolated from Belfast, so far as telephone communication was concerned, Dundalk being the nearest place possible to reach by telephone. It is understood that the provisional government in Dublin has occupied the telephone exchange, replacing the girl operators with men. Telegraphic communication with the southern capital, however, is proceeding as usual.

Fighting Continues BELFAST, June 28. (By Associated Press.)—Wireless reports from Dublin received at 11.20 o'clock were to the effect that the fighting still was proceeding. Despite the heavy firing, thousands of rounds being discharged from rides and machine guns, it was believed there had been only one casualty, a member of the Free State forces.

London, June 28-A Dublin-despatch to the Evening Standard says that after some hours of fighting, many of the disorgent Irish troops under Rory O'Connor are retreating.

The correspondent in a later despatch says he understands the insurgent garrison in the Fowler Memorial hall has capitulated to the provisional government forces.

Salem Mills to Shut Down

SALEM, June 28 .- Notice was posted this morning at the Naumkeng Steam Cotton mills in this city, that at the close of business Saturday, the mills would shut down for two weeks, during which the machinery would be overhauled and repairs, made to the plant. The Danvers Bleachery, at Peabody, a department of the Naumkeng, will also close for the same period. The Naumkeag mills have run continuously for 32 months. Operations will be resumed July 17. Some 4500 employes are affected.

Washington Awaits More Details From Mexico on Seizure of 40 U.S. Citizens

Mexican Officials Order Vigorous Campaign Against Rebel Forces

WASHINGTON, June 28-Govern-WASHINGTON, June 28—Government officials were anxiously awaiting word today of the fate of the 40 American employes of the Cortez Officompany, at Tampleo, Mexico, which the state department was informed had been selzed by bandits and together with a quarter of a million dollars worth of destructible property of the company held as security for a ransom of 15,000 pesos. Report of the ontenne of the seizure was expected hourly from the embassy at Mexico City or the consul at Tampleo, as the time limit of 42 hours within which payment of the ransom was demanded elapsed yesterday.

To Run Down Bandits

MENICO CITY, June 28—(By the Associated Press) Mexican government officials believe that the kidnapping of A. Bruce Biclaski in the state of Morelos and the capture of 40 other Americans near Tampico, within a few hours of each other, are isolated cases of banditry which will be adequately attended to by the federal troops now in pursuit.

Secretary of War Sercano last night had not yet been officially advised on the selzure of the Cortez Oil company's

he seizure of the Cortez Oil company's property near Tampico, and the deten-ion of the 40 employes, but other advices caused him to direct the federal

commander in that zone to start a vigorous campaign against the rebels in the entire region.

General Gorozave, commanding the Tampico rebels, according to the war-office, suddenly appeared in the Huas-teea region last week, and his activities against the oil company's campare incident to his program of out-lawry. Gorozave is said to have nearly 300 well armed men under his command.

news has reached here from No news has reached here from Tampfeo concerning the capture, and local representatives of the Cortez interests said they had no information other than that contained in despatches from Washington. It is rumored here that of the 40 captured less than a dozen are Americans, the remainder being British subjects.

According to advices late last night from Chernavaca, negotiations still are in progress, between Mr. Bielaski's firm and his bundit captors, a brief

message from the former stating "arrangements for release almost com-

neted. Brico safe and well."

Mexican government agents are known to have been in Guernavaca since Sunday night with sufficient funds to meet the ransom demands, but actual contact with the bandits has not been accomplished. The war office announces that two columns of troops equipped for mountain and hill fighting, are now scouring the terrain adjacent to Cuernavaca. lghting, are now scouri adjacent to Cuernavaca.

According to observers at the mill gates about 50 went to work in the Pacific print works, but very few in either the Upper or Lower Pacific mills.

Organizer Francis J. Gorman, of the United Textile Workers of America, was on the picket line. He commented on the statement of the state board of arbitration to the effect that the offer of the Pacific mills to its employes is the best that can be expected at this time, declaring that members of the board are trying to stamped some of the workers into the mills.

Officials of the Pacific mills said this morning that, although conditions were much the same as they were yesterday, there were a few more working today than on either of the previous days of the week.

Democratic Candidate for President Two Years Ago Sailed Today

To View "Consequences of Steady Flow of Doing

Nothing at Washington"

NEW YORK, June 28.—(By Associated Press)—James M. Cox, demo-oratic candidate for president two years ago, saited for Europe today to witness what he described as "the consequences of the steady flow of doing nothing by the present administration at Washington."

He said he would motor through every country except Russia.

The trouble with the Washington administration, as ex-Gov. Cox diag-

administration, as ex-Gov. Cox diagnoses it, is its fullure to "look beyond the end of its nose."

"American trade relations with Eu-

rope must be promoted and that involves the purchase of our surplus supvolves the purchase of our surplus supplies, which, in turn, involves credit." he said. "When I get back I hope to find Germany well on its way into the League of Nations. Every day confirms my faith in the league. The solution of all our economic problems lies in our entry into the league.

"America has a leadership both moral and financial which must be upheld.

WOMEN and MEDICINE

"Our present administration is fanatical in its belief that the League
of Nations has something to do with
the International court of justice.
Therefore our administration will not
consider it. The administrations' mistake is in bending backward in avoidlug the league. The tariff is another
case in point of attitude of the administration which looks no further
ahead then the end of its nose. Now
it is just as impossible to do that in
a financial way as in government matters. It is not appreciated by the
forces in control of government policies that we are in a new era."

THE MERRIMACK NAVIGABLE | crushing the Irish movement by mill-

Notice from Congressman Rogers tary force. Indicates that the hearing on the Mor- Speaking cimack river project before the board of army engineers in Washington, will be held on July 11. At that time and place it is expected that there will be a goodly representation of the busi-ness interests of the Merrimack valley to appeal against any summary or arbitrary rejection of the scheme of making the river navigable from Low-

Already a great deal has been done In this direction, dating back to the days of General Butler. The federal government has land on either side the mouth of the river, as it empties into the ocean between Salisbury beach and Plum Island, a long line of beach and riom island, a long into it huge rocks jutting into the occan a distance of over one-eighth of a mile. They bend inward at the mouth of the river and then open out like the jaws of some huge animal. Outside jaws of some huge animat. Outside are whistling huoys to notify ships of the danger. These "jettles," as they are called, prevent the mouth of the river from filling up with sand and they constitute a danger to navigation in case of a fog or in a severe storm.

The river has been made navigable as far as Haverhill; and it is really surprising how many vessels pass up to that city. It is about three miles from the mouth of the Merrimack to Newburyport and about half way is a danger signal known as "Butler's Toothpick." It resembles the spire of a church rising from the water as marking dangerous rocks. It was a ot channel that was cut in the river bed as for as Haverbill and for us appears, it still serves the pur-pose intended by enabling coal barges and other vessels to muss up and down

are a few bridges that might have to be raised if the river w made navigable; but that would be necessary part of the undertaking. The shallowest section of the river lies between Lawrence and Haverhin; but raised, but that would be one of the minor difficulties to be overcome.

Mr. Sutherland of Lawrence great advocate of the navigable river. great anyonate of the modern that it raveled in Europe and made a special study of such undertakings wherever he went. He has the most convincing arguments as to the prac-ticability and designability of the pro-ject from an economic standpoint.

The object of the present hearing is to hold the question open until the cost of construction is lowered and the government is better pared to engage in such undertakings. It means much to the future of the towns and cittes in the Merrimack towns and cities in the valley se is writer freight service to the scaboard would overcome the discrimination in freight rates generally exercised against Lowell. The cost at the present time would be serveral times as great as in 1914 or when the plans as great as in 1914 or when the plans. were favorably reported upon by the engineers some ten years ago.

CHURCHILL ON IRELAND

CHURCHILL ON IRELAND

It was to be expected that the British parliament would note the ministry on its Irish policy as a result of the assosaination of Sir Henry Wilson; but, as usual, the promier steered through the troubled waters without any sign of trepidation. The vote by which the ministry was upheld indicated that the opposition numbered only 75 as against 312. Secretary Churchill in his explanation of the Ulster trouble clearly mis-alated the facts when he said "the trouble in Ulster was due to the organization there of two divisions of the frish republican array and the continuous efforts of extreme partisans of the south CHURCHILL ON IRELAND

About the time King George hade a conclisiony speech in opening the Uniter parliament, the Sinn Fein union and intercepted a letter from Sir Henry Wilson in which he said: "The only way to settle the Irish question is to exterminate the southern republicans ruthlessly." At that time there was no republican movement in there. Speaking of Wilson's attitude toward the Irish neople, the New York World said: "Rightly or wrongly, Sir theory was credited with the idea of the formation of the 'free lance' forces of the Black and Tans and their auxillaries who were charged with some of the worst crimes in the long fight between the Sinn Fein and the crown forces."

A fortnight before his death, Sir Henry, in a speech in the house of commons, severely criticized the government as cowardy and Incompetent ment as cowardy and Incompetent ment as cowardy and Incompetent to the canadian border they might. Wilson in which he said: "The only

Speaking of the assassination, The New Statesman, a London paper, said:

New Statesman, a London paper, said. "The tragedy is likely to make the Ulster situation worse than ever, but the fact remains that Sir Henry Wilson, with his fanatical Orangelsm, his remarkable abilities, his military prestige and his powerful and inflammatory speeches did more perhaps than any other man to create that situation and to promote that spirit of ruthless and stupid retallation which had led to his own death."

From such statements from British sources, it appears highly probable that it was Wilson's policy of ruthless severity that led to his assassination following a long series of inflictions and reprisals. None but a madman could plot such a murder in behalf of Ireland and hence in all probability it was committed from motives of revenue. Already it has injured Ireland and jeopardized the measure of free-dom she has been offered, Hence-forth, the imperial policy toward Ireland will be more stern and if the provisions of the treaty are not car-ried out in good faith, the whole pact is liable to be cancelled, as Secretary Churchill stated; and if that should happen, Ireland will have tost the best opportunity of freedom offered her in 750 years and she will have but herself to blame.

THE LAWRENCE STRIKE

At present a strong appeal is being made to the Pacific mills of Lawrence to invite the striking operatives to return to work at the old rate of wages. pending an improvement in business that might render the reduction unnecessary. If the expected improvement should not be realized, then the operatives would submit the question of wages to arbitration by the gentlemen named by Treasurer Greene of the Pacific or any other body of falrminded men.

between Lawrence and Haverhill; but What is needed is a mill official the excavation would be easy because brove enough and magnanimous of that fact. If this project be undergoing to break the deadlock and ask of that fact. If this project be uniter-taken it might best be finished in sections so that the part below Haver-hill would be perfected before that between Lawrence and Haver-hill would be bucked. The section between Lowell and Lawrence would not require so much dredging as the river here usually has a good flow of water and is much deeper than the second section farther down. The bridges at Lawrence would have to be raised, but that would be one of the this if the leaders on the other side gave ample assurances of their wil-lingness to accept the new scale to be

fixed as stated.

The offer made by the Pacific was that if the operatives return at the new rate, the management will submit to a readjustment of the wage scale to be made in October by arbitration. It will be too had if the overtures of the Pacific miles for a continuous of the Pacific miles for tures of the Pacific mills for a com-promise fall to bring about a settle-ment of the whole trouble and the return of the strikers to their ma-clunes on conditions mutually acceptable.

Berton Braley's Daily Poem WEATHER

The sun is bright and glistering, Its rays are fairly blistering, I swelter Seeking shelter Where it's cool, but find it not; The air seems close and thick to me, My clothes completely stick to me, I'm panting As I'm chanting

Along the highways glimmering, The waves of heat are shimmering, I'm baking 🕚

And Pm aching For some frigid arctic spot, Where I might sit and freeze awhile And thus be quite at ease awhile;

I'm tiring Of perspiring-It is hot!

"It is hot!"

Yet should a blizzard sweep upon The land, and snow lie deep upon The highways And the byways

I'd be horrified, I wot! I'd find a lot to swear about--- ' As snow flakes in the air about Mere awishing, I'd be wishing

It was hot!

rangement and direction was in the hands of John B. Barr, mester, and the excellence of the program was ample proof of his ability. Music played prominent part in the exercises, and Mr. Barr directed it all, with the as-sistance of Miss Helen M. Bagshaw, accompanist, a member of the 1917 class. In a review of the program, just # word must be said in special commen-dation of the work of Miss Dorice Wilde, who gave a most impressive reading of "The Flag Makers." So good was it, that she was obliged to give a second reading as an energe and even then the audience was loathe to let het go. Evidently she has studied the ar

go. Evidently she has studied the art of platform speaking not a little and has progressed rapidly in her work. The class gift to the school was a beautiful water color. "The Pine Tree," painted by a young man, who had the misfortune to lose an arm, but who grasped the opportunity of turning out beautiful things for people to enjoy. In accepting the gift for the school, Mr. Barr stressed just this point—the desire to grasp whatever opportunities come to the graduates during their school, lives.

Should Infielder Block a Base Runner! '

BY BILLY EVANS.

American League Umpire and Sporting Editor of N.E.A. Services
Of late years there has been a tondency on the part of some infielders to
resort to blocking to get results.
Calchers have taken up the custom
even more than the infielders. Profected by heavy shin guards and a protector, the catcher has a decided advantage over the runner, as a matter
of fact, the runner coming into the
plate is seriously handleapped by the
blocking habits of the catcher. It the
runner comes in high speed in an erfort to intimidate the catcher, he is at
once regarded as a rowdy player.

A great many infielders now wear a
heavy felt protection for the shins.
This protects them against spikes and
makes it possible to take inally
chances.

When an infielder touches a runner,

berth as a result of the "fron man" performance of their star twirler. Edde die Rommel, in chalking up two victories over the Red Sux. Rommel earned a 4-2 decision in the first half of a double header and came back in the seventh inning of the second game to stem a Boston raily, while hig mates pounded Ferguson and won, 6 to 4. Tille Walker cracked out his 13th homer of the season, tying the total of his teammate, Bling Miller. The rejuvenated White Fox tossed their hads into the American league pennant ring by trouncing Datiolt, 5 to 5, after Ferdle Schupp had been driven from the mound in the first inning, and ascending to a tie for third place with the Tigers.

The Yankees were idle but the St. Louis lost part of its margin at the top when Cleveland snatched victory from the Browns with a six run raily in the eighth that sent Wright and Van Gilder to the showers. The search was 9 to 7.

Dutch Ructher registered his 13th victory of the season when Brooklyn disposed of Boston, 7 to 3. The Glanus took a six lanning adair from the Philles, 7 to 1, rain cancelling a double header program, while the St. Louis Cardinals tied Cincinnati in the ninth and won in the 12th, 9 to 8.

Pittsburgh checked its downward change by taking a twin bill from Chleago. Cooper scattered the Lubs blows in the first while the Trates drove Alexander to cover in the second.

Colleges Not Clubs, Says Meiklejohn

BOSTON, June 28.—President Alexander Meiklejohn of Amherst, speaking at a convention banquet of Theta Delta Chi fraternity last night, said that American colleges "must not, cannot be, shall not be, private clubs or their facilities used for private ends and enjoyment." President Meiklejohn asserted that in his opinion the college was a public institution and not a private place and that "it ought to exist only insofar as it serves the people and all the people of the country in which it exists.". .

the big idea of the carnival was to put over the McManus picnic.

Michael J. Harrington also spoke in favor of the petitioners. Ho, said the big idea of the carnival was to raise funds to put the legion on a firm financial basis. He pointed out that all theatres in Lowell are cweed by out-of-town people and the money goes to them. He said that \$6 per cent, of those having concessions on the South common last year were out-the South common last year were out-the south common last year were out-

of-town men.

Arthur P. Moran, chairman of the sick and visiting committee of the legion, spoke in favor. He told of a number of men in hospitals who needed aid and that there was no money in the treasury with which to give it to them.

John J. Walsh of the legion pointed out that the legion was asking only a fair deal. He said that while some of the remonstrants were making out that the legion was making only a fair deal. He said that while some of the remonstrants were making money on the South common on July Fourth for their own personal gain, the legion would be out dedicating aguares for Lowell men who died in the service.

Martin F. McCarthy added his bit in favor. James J. Fowers, past commander of the legion, was the last speaker for the potitioners. He claimed the opposition was not constructive but was of a personal nature.

William Schaake was the first speaker for the remonstrants. He said that the managers held a standing protest with the Heense commission against carnivals.

the Heense commission against carrivals.

He pointed out that all carrivals come to Lowell under the auspices of some worthy organization and that makes it difficult for the managers as it seems, as if they were hitting directly at the organizations.

He then announced that on behalf of the managers he wished to withdraw any opposition in this particular instance inasmuch as he realized the legion needed the money.

Francis J. Roans spoke on the side of the remonstrants. He said he did not own lots on the common this year. He also said he offered, Commander Garrity \$1000 for the same privilege as Ingali's was getting for \$300. Heans said that the legion was being blinded

AMONG DEMOCRATS

WASHINGTON, June 28.— The first real split among democrats and the first solld vote of republicans on the tariff came today with the approval by the senate, 48 to 15, of the committee rates of, 11½ cents a pound on live cattle weighing less than 1950 and two cents on such cattle weighing more than that amount.

Five western and southern democrats supported the committee rates.

Boston Chamber Fears Increase in Prices of Fruits

BOSTON, June 28.—Unless a speedy readjustment of Boston marketing conditions is effected, the Boston chamber of commerce expresses in a report the fear that prices for fresh fruits and vegetables in this section will further increase.

Marketing transportation facilities new in use here, are the same as in operation when the city's population was 50,000, says the report, adding that "if New England's industrial position is to be maintained the cost of food to New England consumers must be inade as reasonably low as possible."

A possible solution of the present market congestion is offered by the es tablishment of a central market, ac cessible for water and ralishipments

DR. SCHREIBER HELD FOR

House leaders said there was no likelihood of action on the resolution at this time.

MACON, Ga., June 28—Dr. Ernest Schreiber, brother of a former mayor of Toledo, Ohio, today was in the Bibb county jail, held without bail pending arrivat of Boston officers with papers calling for his extraultion on charges of abandonment, non-support and describer like in a circular issued yesterday by Frank A. Goodwin, registrar of motor vehicles.

Move to Protect Unions From Suits

CLEVELAND, June 28.—Organized labor should answer recent deeisions of the supreme court with a campaign to secure the concernent of a law which will protect it from suits for damages by employers instead of denouncing the laws, the Brotherhood of Locomotive Engineers stated in a bulletin issued today. "Such decisions as the Coronado case are doing more to discredit the law and the courts in the eyes, of the working people than all the so-called radical agitutors in the country," the bulletin declared.

Connolly's Real Name is Reginal Rudd

LONDON, June 28.—The real name of James Connolly, who is charged with the nurder of Field Marshal Sir Henry Wilson, is Reginal Rudd, says the Evening News today. The News says he served three years with the Irish guards in France, that he lived in a London suburb and drew a pension. His father, it says, is a retired bandmuster of the Dragoon guards.

SPRINKLE-BLOW MINDS MOON AS

THE MOON SUDDENLY HAD BECOME QUIET AND FEACEFUL AND REAUTIFUL AGAIN

one is just learning how to drive,
Mr. Sprinkle-Blow looked thought-

handto marked "Full moon—shiny."

And the folks on the earth quit wagging their heads and garing up through
their long glasses at the queer antics
of the moon. For the moon suddeally
had become quiet and penceful and
heautiful again—shining down over the
tree-fops like a lamp,
Away went Nancy and Nick to hunt
for poor Mr. Peerahout.

Justice is blind. All of us think we Our army may he put to 125,000, but

as long as strangers walk across tawns we will have fighters. Voliva says all flappers are going to hell. Some of them are nearly dressed for the trip.

Some men stay down town so much that when they do cat at home they look forward for the monu.

Times get better. A ple hasn't as many pieces as it once had.

No July Fourth is complete with-out somebody calling our flag "The colors that never run." Yale gave it honorary degrees this year. The thermometer is doing better than that.

PISTOL PRACTICE AT THE ARMORY

Fistol practice featured a busy session of Headquarters Detachment at the armory last alght. Several good shots were registered.

Tonight at Tarciock a physician will be at the armory to give the final inconlation preparatory to going to camp. New applicants will also be examined. Those who pass will be eligible for camp duty.

MAY POSTPONE HEARING LOWELL DISTRICT

Merrimack River Hearing in Woman Washington Will Not Be Held Until Fall

In view of the fact that sentiment throughout the Merrimack river valley is strongly in favor of a postponement of the hearing scheduled for all charge of illegal keeping being laying at the will be postponed until some time river the fluor persons, three men and a woman, who were charged with drunkenness, led to the additional charge of illegal keeping being louged against the woman following a visit to her Moody street home by prepriets of the fluor squad last

hellef that the channel would not be sufficiently used if dug.

The chambers of commerce of Lowell, Lawrence and Haverhill have been working hard to arouse interest in the hearing and Secretary George F. Wells, while ready for the date of July 11 has wired Congressman Rogers that the local organization has no objection to a postponement, it thought advisable and if agreeable to the chambers in the other two cities down-river.

Charged Illegal Drunkenness and

Keeping-Man Robbed

The arrest of four persons, three July 11 at Washington on the rivernavigation project, it is probable that it will be postponed until some time
next fail.

Mayor George H. Brown today received word from Congressman John
Jacob Rogers that he is endeavories
to obtain a postponement and stations
that men interested in the project. In
Lawrence and Haverbill also are working for this end.

The mayor said that he favors any
change that might have a tendency
to work to the good of the proponents
of the project and that tomorrow he
will meet with the members of the city
council who have been chosen and designated to represent the city of Lowcell at the hearing, to obtain their ideas
on the proposed postponement.
Also, in today's mall, the mayor received a communication from the board
of July 11 is favorable to him and any
representatives of the city who might
attend.

At the last meeting of the counciler

of July 11 is favorable to him and any representatives of the city who might attend.

At the last meeting of the council president Bagley appointed Councilor Smith J. Adams as one of the city's representatives and the names of Councilors Appleton and Searns were drawn as the two other committee members. As the mayor decided he could not spare the time to make the trip, President Bagley was togo in his stead. City Solicitor Edward J. Tiernoy also was slated as a member of the local delegation.

The hearing is for the purpose of the latest report on the project submitted by the army engineers. In which it is stated that the idea is not practical at this time, owing to excessive cost of construction and the belief that the channel would not sufficiently used if due.

The chambers of commerce of Lowell, Lawrence and Haverhill have been working hard to arouse interest in the hearing and Secretary George F. Wells, while rendy for the date of July 11 has wired Congressman Regers that the local organization has no objection to a postponement, if thought advisable and if agreeable to the chambers in the other two cilles down-river.
